Personal Check Policy

Our personal check policy follows:

- The ability to write a personal check for educational costs at Morehouse College is a *one-time privilege* that is *renewable* only if the personal check is honored by the corresponding financial institution.

- Personal checks will not be accepted from any customer whose check was not honored by the corresponding financial institution. This also means that the College will not accept a personal check from, or on behalf of, any student whose account has a flag indicating the return of an insufficient funds check. After one personal check is not honored, *all current and future educational costs must be satisfied via cashiers or certified check, money order, major credit or debit card, traveler’s check, or cash.*

- The College will continue to accept personal checks at any time from customers whose financial institutions have always honored their checks.
