Dear Old Morehouse

Dear old Morehouse, dear old Morehouse College
We have pledged our lives to thee;
And we'll ever, yea forever,
Give ourselves in loyalty.

True forever, true, forever,
To old Morehouse may we be;
So to bind each son the other
Into ties more brotherly.

Make us steadfast, honest, true,
To old Morehouse, and her ideals,
And in all things that we do.

Martin Luther King Jr. International Chapel
Dr. Corey Hebert ’92, a practicing physician, and television and radio talk show host, is one of the most widely sought after professionals in his fields of community inspired medicine and motivational speaking. After leaving his home in Baton Rouge, Louisiana, Dr. Hebert attended Morehouse College. He took the campus by storm by becoming freshman class president of what was then the largest freshman class in the college’s illustrious history. Dr. Hebert always wanted to serve his fellow man, and upon graduation from Morehouse he continued the pursuit of his goals at Meharry Medical College in Nashville, Tennessee.

While at Meharry, Dr. Hebert received many awards and held many leadership positions. Upon completion of his studies, Dr. Hebert started his residency at Tulane University Medical Center in New Orleans, Louisiana where he honed his clinical as well as his leadership skills. He was elected to the National Executive Committee of the American Academy of Pediatrics during which time he received a special National exemplary achievement award for leadership. Dr. Hebert was also the Chairman of the Louisiana State Medical Society Resident section, the first African American to hold this post.

Dr. Hebert’s clinical expertise earned him the position of Chief Resident of Pediatrics at Tulane University, the first African American to achieve this honor in the renowned institution’s history. After residency Dr. Hebert continued to strive for excellence while fulfilling his obligation to the National Health Service Corps. As Director of Pediatrics for Excelth, Inc., Clinical Pediatrician for New Orleans City Health Dept, and Assistant Professor of Pediatrics at Tulane University, Dr. Hebert saw the healthcare needs of the downtrodden of New Orleans, which were not being addressed. Dr. Hebert took the bull by the horns and started to produce and host an informative TV show about pediatric health concerns unique to the inner city.

Dr. Hebert has garnered many accolades in the city of New Orleans such as being recognized as one of the “30 Leaders of the Future” in Ebony magazine, one of the “40 under 40” in Gambit Weekly, and he was also picked by CitiBusiness Magazine as one of the “People to Watch in New Orleans.” Dr. Hebert has been featured many times on national broadcasts including “The Oprah Winfrey Show,” “The Early Show” with Harry Smith on CBS, “NBC Nightly News” with Brian Williams, and “Good Morning America,” to name a few. Dr. Hebert has been dubbed as the expert on healthcare issues by NBC News (WDSU-TV) where he is also the Chief Medical Editor and is on air daily. He was also featured in the Spike Lee feature film, “When the Levees Broke.” He hosts a weekly radio show on Citadel Broadcasting Network, aptly titled, “Doctor for the People,” a nickname given to him by the communities which he so readily serves. He currently is also a contributor to the Discovery Channel show, “How Stuff Works.”

Dr. Hebert serves on many committees and boards and has served as the Vice-Chairman of the National Executive Committee for the National Health Service Corps. He also accepted the position of Chief Medical Director of the State of Louisiana Recovery School District. He will spearhead an innovative wellness concept in all of the more than 70 schools in the district to ensure the mental, physical and social health for all students as well as all faculty and staff. He developed the 1st annual “Fleur de Physicals” in New Orleans which allows all students in New Orleans Public Schools to obtain a free sports physical in preparation for the school year. This year alone the event served over 1000 children. Dr. Hebert has also secured free immunizations for the entire Louisiana Recovery School District to ensure compliance for the totality of children in Katrina ravaged New Orleans. Since his appointment, the immunization rates have increased from 53 to over 93 percent. Most recently he has been appointed Chief Medical Officer of Dillard University in New Orleans.

Dr. Hebert’s interests are diverse. He also travels extensively for motivational speaking engagements for many national organizations that recognize his ability to communicate. Dr. Hebert is 40 years old and has one son, Corey Joseph Hebert, Jr.

His latest endeavors include serving as contributor to the “Dr. Oz Show” and as CEO of Black Health Television.
