STEP #1

*Educate yourself.*
A MESSAGE FROM THE DIRECTOR

Thank you for your interest in the 2018 Morehouse College Summer Academy. We are excited about the variety of programs offered this year and believe you will find one that will provide an exciting and valuable educational experience for your child.

Program descriptions are provided according to the school or college education level. Feel free to scroll down and see each program description which provides overview and contact information.

We hope that you will join us for a rich and memorable summer experience on the campus of Morehouse College!

Dean Alvin Darden
Dean Alvin Darden
Director, Morehouse College Summer Academy
alvin.darden@morehouse.edu
GENERAL INFORMATION - SUMMER ACADEMIC PROGRAMS

Morehouse College Summer Academy provides an enriching blend of academic opportunity and social engagement to middle school, high school, and college students to advance their studies and interest on subject areas in the sciences, arts, and technology fields.

The on-campus living-learning experience offers to rising high school juniors and seniors the opportunity to experience life on campus, attend intellectually rigorous, “college-style” classes, and gain skills and confidence as they prepare for college. Each program offers a wide range of subjects that will engage and expand student interests as well as deepen their knowledge and understanding of college life.

Aside from the academic aspects of each program, there are a multitude of extra-curricular activities to learn more about the Atlanta area and the history of Morehouse. In addition to the daily “mini-Core” classes, students also participate in workshop sessions on topics such as SAT preparation, financial aid options, leadership and career choices.

PLEASE NOTE:
Morehouse College serves as the host of all the Summer Academy programs. Several programs are offered and sponsored independently of the College and of the College’s policies and procedures as it relates to the operation and curriculum.

For detailed information and questions, please contact the Directors and Program Coordinators listed under each program on the following pages.

| Morehouse Campus Main Line | 470-639-0999 |
| Morehouse Campus Police    | 470-639-0604 |
| Morehouse College Student Health Services | 404-215-2637 | shc@morehouse.edu |

DISCLAIMER
The Academy Office has no control over application deadlines set by individual program directors. In some cases, these deadlines are governed by their funding source. Morehouse College does not discriminate in admissions policies and educational programs on the basis of race, color, age, religion, national origin, or persons with disabilities.
MIDDLE SCHOOL PROGRAMS

Non-Residential
The STEM EnRICH Summer Academy

Dates: June 4, 2018 - July 6, 2018 (9 a.m. - 4 p.m.)

Overview: STEM Enrich is a STEMulating five week college readiness experience for rising 7th, 8th, 9th, 10th, and 11th grade male and female students. Students will learn career building STEM skills, become familiarized with various STEM careers, and interact with STEM professionals. In addition to a robust science, engineering, math, and technology curriculum, the students will participate in a variety of enrichment activities including chess, visual arts, and field trips to local science centers and museums. The STEM EnRICH program will offer fun, creative, inquiry based and hands on learning experiences to equip the students with 21st Century skills for success.

Sponsors: Atlanta CARES Mentoring Movement

Eligibility: Middle School and High School Male and Female Students (Rising 8th, 9th, 10th, and 11th Graders)

Housing: NON-RESIDENTAL

Curriculum: Rigorous and engaging activities including robotics, engineering, Apps Design, life science, coding with music, and film-making.

Cost: $180 per week
Total cost for 5 weeks - $900

Application Materials:
1. Registration Form (https://atlantacares.wufoo.com/forms/rowtzwj0ixze3q)
2. Morehouse College Health Form

Return Application Materials to:

Verizon Innovative Learning

Dates: June 4, 2018 - June 22, 2018
Monday - Friday
9:00 a.m. - 4:00 p.m.

September 2018 - May 2019
One Saturday per Month

Overview: The Verizon Innovative Learning program partners with Historically Black Universities and Hispanic Serving Institutions to prepare minority male students in middle school for the tech careers of the future. This program provides the only exploratory project-based learning experience of its kind in the nation that leverages next gen technology to put minority males, who are underrepresented in STEM careers, on the path to brighter futures. Through a common curriculum, the young men will learn 3D design and printing, coding, augmented reality, and virtual reality. Transportation to and from program will be provided, as well as lunch and snacks.

Sponsors: Verizon Foundation

Eligibility: Middle school minority males from the targeted population of middle schools with an average of over 70% FRL.

Housing: NON-RESIDENTIAL (Transportation to and from program will be provided)

Cost: There is no cost to participate in this program.

Application Materials: Please call or email Mrs. Carol Shearer indicating interest in the program.

Application Deadline: May 11, 2018

HIGH SCHOOL PROGRAMS

Residential and Non-Residential
THE SUMMER MATH AND SCIENCE HONORS ACADEMY (SMASH)

Dates: June 9, 2018 - July 12, 2018

Overview: The Summer Math and Science Honors Academy (SMASH) is a free of cost, STEM-intensive college preparatory program for underrepresented high school students of color. SMASH boasts a rigorous 5-week, 3-year summer, fully residential STEM enrichment program which provides access to STEM coursework and access to mentors, role models, and support networks of students of color. Each summer, SMASH scholars spend five weeks on a college campus immersed in STEM and live among other high-potential, underrepresented (African American, Latino/a, Native American, Southeast Asian or Pacific Islander, low-income, first-in-family to attend college) high school students. In addition to their summer courses, SMASH scholars remain engaged during the school year through monthly STEM workshops and academic programming. This includes SAT prep, college counseling, financial aid workshops, and other activities to ensure continued academic success. The program not only reinforces the students’ STEM academic identities, but also focuses on developing their critical thinking, civic awareness, leadership and sense of social responsibility.

Sponsors: Level Playing Field Institute

Eligibility:
1. Grade Level: Be in the 9th grade at time of application.
2. Math Skills: Have strong mathematics skills appropriate for your grade level, as determined by your state standardized math test scores.
3. Attend a public high school or private high school via scholarship.
4. Location: Reside in the United States within 50 miles of Morehouse College as determined by your zip code.
5. Applicants to SMASH: Morehouse College must identify as male.

Housing: RESIDENTIAL

Curriculum: The SMASH curriculum includes courses such as Math, Biology, Engineering Design Challenges (EDC), Computer Science (CS), Social Justice, Chemistry, Physics, SAT Prep, College Success, and more. Students receive a laptop to use during the summer academy.

Cost: NO COST

Application Deadline: March 1, 2018

THE PRE-FRESHMAN SUMMER ENRICHMENT PROGRAM (PSEP)

Dates: June 11, 2018 - July 20, 2018
Check-in Services: June 10 - 8 a.m. to 3 p.m.

Overview: The Pre-Freshman Summer Enrichment Program (PSEP) is a dynamic six-week academic enhancement and college readiness program that offers pre-freshmen a challenging and rewarding experience on the historic campus of Morehouse College. PSEP is primarily designed to strengthen participants' academic skills, study habits, critical thinking and time management abilities. In addition, participants will become familiar with the campus and Atlanta community prior to their fall semester. They will gain a head start on familiarizing themselves with their new home away from home.

Eligibility: Admitted Incoming Morehouse College Freshmen

Housing: RESIDENTIAL

Curriculum: Each participant will be placed in a Math course (Basic Math, College Algebra, Pre-Calculus, Calculus) and an English Composition course. Based on his academic performance the participant may earn college credit in a particular course, not including Basic Math or Reading, provided he earns a grade of "C" or better.

College Readiness/Extra-Curricular/Social and Cultural Activities:
- The College Experience: High School versus College Expectations
- Critical Thinking and Problem Solving Seminars at the college level
- Time Management and Effective Study Skills Workshops
- Four Year Graduation Planning
- The College's Mission History
- Weekend Social Activities and Community Service Activities

Cost: $3,500 per participant
Full Payment due by May 29, 2018
Unfortunately Morehouse College does not offer any scholarships or financial aid for summer program enrollment.

Application Materials: 1. Completed Application Form
2. Approved Heath Forms
Application Deadline: May 29, 2018

GREATER ORLANDO UPWARD BOUND
MATH-SCIENCE PROGRAM

Dates: May 27, 2018 - June 2, 2018
      June 3, 2018 - June 29, 2018
      ONLINE             ON-CAMPUS

Overview: Funded in full by the United States Department of Education, the Greater Orlando Upward Bound Math and Science Program (GOUBMS) is designed to strengthen the math and science skills of participating students. The goal of the program is to help students recognize and develop their potential to excel in math and science and to encourage them to pursue postsecondary degrees in math and science, and ultimately careers in the math and science profession. The program provides summer programs with intensive math and science training; year-round counseling and advisement; exposure to university faculty members who do research in mathematics and the sciences; computer training; and participant-conducted scientific research under the guidance of faculty members or graduate students, who are serving as mentors; education or counseling services designed to improve the financial and economic literacy of students; and programs and activities previously mentioned that are specially designed for students who are limited English proficient, students from groups that are traditionally underrepresented in postsecondary education, students with disabilities, students who are homeless children and youths, students who are in foster care or are aging out of foster care system or other disconnected students.

Sponsors: United States Department of Education

Eligibility: Highly motivated, disciplined and hard working students who are:
  • US Citizen or permanent Legal resident of the U.S.
  • Rising 10th, 11th or 12th grade student attending Maynard Evans & Jones High Schools in Orlando, FL
  • Potential first generation college student with demonstrated financial need
  • Good academic standing
  • Intend to pursue a four-year college degree

Housing: RESIDENTIAL

Cost: Free to participants

UPWARD BOUND MATH-SCIENCE
STATE CENTER PROGRAM

Dates: May 29, 2018 - June 30, 2018

Overview: The Upward Bound Math Science State Center is designed to provide 63 students within the State of Georgia with a five-week extensive residential summer curriculum. The program assists students in developing critical thinking, scientific and analytical skills, and effective expression. It also provides students with the opportunity to interact with their peers from different regions of the state, which in turn, fosters an environment of diversity and friendship.

Sponsors: U.S. Department of Education

Eligibility: Applicants must be currently rising 10th through 11th grade and have completed Algebra I with at least a 3.0 average and have an interest in Math and Science. Students must be enrolled in targeted high schools throughout the State of Georgia. Applicants must be a first generation and or low-income students that meet the federal government guidelines for low-income families.

Housing: RESIDENTIAL (June 3-June 30)

Curriculum: Students will take classes in English/Composition, Biological Sciences, Physics, Chemistry, Mathematics, Foreign Language, and Computer Literacy. Students will conduct various research projects at a designated site. Student's work will involve many hours in the field, laboratory, library, and at the computer. Within five weeks, each student will have completed their final science project, prepared a group presentation, and written a manuscript for a research journal.

Cost: There is no cost for this program

Application Materials:
1. Completed Application
2. Completed Recommendation by One (1) Math or Science teacher
3. Completed Recommendation by counselor

UPWARD BOUND SOUTHEASTERN REGIONAL MATH/SCIENCE CENTER

Dates: June 1, 2018 - June 7, 2018 (ONLINE)  
June 8, 2018 - July 6, 2018 (ON-CAMPUS)

Overview: The Morehouse College Upward Math/Science Southeastern Regional TRiO Program is designed to provide eligible students an intensive six-week summer curriculum. Students must be currently enrolled in targeted High schools and/or southeastern regional states. This program assists students to develop critical thinking, scientific, analytical skills, and effective expressions; both written and verbal. Students will be given the opportunity to work in various laboratories and exposed to a variety of science, math and engineering careers. Students will also have an opportunity to interact with students from other states which enhances an environment of diversity and friendship. Students will spend a significant amount of time working in small groups on Research Projects which will be presented before an audience and a panel of judges.

Sponsors: U.S. Department of Education

Eligibility: Applicants must be currently enrolled in the 9th through 10th grades and have completed Algebra 1 and Biology and have an interest in STEM courses with a GPA average above 2.5. Students must be enrolled in targeted high schools and regions. Applicants must be first generation or low-income students that meet the federal government guidelines for low income families.

Housing: RESIDENTIAL (June 8, 2018 -July 6, 2018)

Curriculum: Students will take classes in Nano-biotechnology, Physics Engineering, Aerospace Engineering, Chemistry, Mathematics, Spanish, ACT/SAT Preparation and Technical Writing. Research Projects will be completed in various laboratories and field data collection sites. Within five weeks, each student will have completed a science research project, prepared a group presentation, and written a research manuscript.

Cost: There is no cost for this program

COLLEGE PROGRAMS

Residential
MSEIP PRE-FRESHMAN STEM SUMMER PROGRAM

Dates:  
May 14, 2018 – June 8, 2018  Four-week (4) Online Bridge Program  
June 22, 2018 – July 7, 2018  Two-week (2) Residential Program

Overview:  
**Online Bridge Program:**  
This online program provides proven learning strategies that help students: transition from high school to the rigors of college; understand what skill sets are needed to be successful in college; and ultimately increase students’ college GPAs.

**Residential Summer Program:**  
The pre-freshman Residential Summer Program is an engaging, hands-on two week program for pre-freshman STEM majors who: complete the four-week Online Bridge Program; earned required earmarked Residential Rewards Points; and are selected by our faculty panel.

Sponsors:  
Department of Education, Minority Science and Engineering Improvement Program (MSEIP) & Morehouse College Office of Housing and Residential Life

Eligibility:  
All high school seniors who have been accepted and plan to enroll at Morehouse College in the fall of 2018. Upon registration, students must declare a major in one of the sciences, which includes biology, chemistry, physics, computer science, dual degree engineering, mathematics or psychology and be interested in pursuing a career in science.

Housing:  
Residential

Curriculum:  
- Components of the Online Bridge Program consist of an Online Scientific Literacy course completed at home (www.scientificliteracycenter.org) and weekly webinars facilitated by faculty, staff and Morehouse College administrators
- Components of this Residential Program consist of conducting a research/design project in Morehouse College Makerspace Exploration Center, personalized mentorships by Morehouse faculty, and opportunities to present at conferences and/or competitions.

Cost:  
There is no cost to participate in this program.

Application Materials:

RONALD E. MCNAIR POST-BACCALAUREATE ACHIEVEMENT PROGRAM

Dates: May 29, 2018 – July 20, 2018

Overview: Funded in full by the United States Department of Education, the Morehouse College Ronald E. McNair Post Baccalaureate Achievement Program is a year round graduate school preparatory internship with an eight-week summer research component. The program is designed to prepare first generation undergraduates demonstrating strong academic potential for doctoral studies, through involvement in research and other scholarly activities. The program provides faculty mentored research opportunities in the STEM and Psychology fields, opportunities to publish and/or present research findings, and assistance with the graduate school application process. Primarily, the goal of the program is to increase the attainment of Ph.D. degrees by students from underrepresented segments of society. The Morehouse College McNair Program encourages participants to enroll in graduate programs and tracks their progress through to the successful completion of advanced degrees.

Sponsors: U.S. Department of Education

Eligibility: Highly motivated, disciplined and hard-working rising juniors and seniors, who are:
- Morehouse College Student
- US Citizen or permanent Legal resident of the U.S.
- First generation college students with demonstrated financial need
- Historically underrepresented minority at the graduate level
- Good academic standing (3.0 or higher desired)
- Majoring in Physical, Biological or Psychological Sciences

Housing: RESIDENTIAL

Cost: There is no cost for this program

The mission of Morehouse College is to develop men with disciplined minds who will lead lives of leadership and service. A private historically black liberal arts college for men, Morehouse realizes this mission by emphasizing the intellectual and character development of its students. In addition, the College assumes special responsibility for teaching the history and culture of black people.

Founded in 1867 and located in Atlanta, Georgia, Morehouse is an academic community dedicated to teaching, scholarship, and service, and the continuing search for truth as a liberating force. As such, the College offers instructional programs in three divisions - business and economics, humanities and social sciences, as well as science and mathematics – including extracurricular activities that: develop skills in oral and written communications, analytical and critical thinking, and interpersonal relationships; foster an understanding and appreciation of world cultures, artistic and creative expression, and the nature of the physical universe.

HISTORY

In 1867, two years after the Civil War ended, Augusta Theological Institute was established in the basement of Springfield Baptist Church in Augusta, Georgia. Founded in 1787, Springfield Baptist is the oldest independent African American church in the United States. The school’s primary purpose was to prepare black men for ministry and teaching. Today, Augusta Theological Institute is Morehouse College, which is located on a 66-acre campus in Atlanta and enjoys an international reputation for producing leaders who have influenced national and world history.
Morehouse College and the Department of Campus Safety are committed to providing a safe environment for all students, faculty, staff and visitors. We encourage you to report emergencies, criminal activity, suspicious subjects, and vehicles.
